

Financial Independence Mini Fast Track

A Home Business

A 2x2 Matrix - only 6 people to fill

		YOU			
	\$1		\$1		= \$2.00
\$9		\$9		\$9	= \$38.00

COST \$13.00 a MONTH

When filled we put you into another 2x2 plan that costs \$40.00 a month. You don't pay that, all you pay is the \$13.00. The Mini Plan generates the money to pay your \$40.00 each month. When that 2x2 is filled we will put you into the nutritional company and buy you \$70.00 - \$90.00 worth of products, of your choice. When our matrix is completed, the people from your matrix, follow you into the nutritional company, and that is when you will start receiving commissions down through 8 levels. The company pays out 70% in their commission plan and all this for only \$13.00 each month. We are working a 3 wide matrix in the nutritional company.

This is a plan where people can get into a company and make a good residual income without investing a lot of money or spending a lot of money up front or each month. We have what we call spots and each spot costs \$13.00 which is a 2x2 matrix. When you have filled the matrix, we will put you into our 2x2 Fast Track matrix but you will only be paying \$13.00 each month. If you wanted more than one spot, these matrixes would get you into the Fast Track and the nutritional company by a combination of the pay from the matrixes. For \$26.00 or \$39.00 each month you could have 2 or 3 spots or you could have just the one for \$13.00 each month. This is a very good financial plan to get you into a great nutritional company where you will be paid for the people under you.
