**THIS IS A
RISK-FREE
DEALERSHIP!**

Lansing, IL – My name is Christian Scott. A few years ago, if someone had told me that I could earn \$1,000 a DAY while sitting at home in my pajamas, I'd have thought they were crazy. But here I am. All of what you are about to read will shock you. It will also excite you, as you'll find out the secrets of how easy it is to earn thousands of dollars each day from your home in the beautiful world of mail order.

For the first time ever, I'm now going to reveal everything about how I started from scratch and built a mail order empire that now earns me more money in a day than some people earn in a month. In fact, I'm going to lay it all out so that you can easily understand and copy exactly what I'm doing.

Here's What I Discovered . . .

Go pick up a few money-making magazines on any newsstand. What do you see as you flip the pages? That's right, you see dozens of full-page ads. Why do you think these ads continue to run month after month, year after year? Right again, these ads are earning the operators behind them an absolute fortune! And guess what? These operators aren't lifting a finger to do any work!

Here's Everything That They're Doing . . .

What I found out is that many of these operators were running these full-page ads for FREE. They had to pay for them: only after the huge profits came in. And we're talking profits of \$30,000, \$50,000, even \$100,000 A MONTH or more! I know it's hard to believe. But think about it for a moment. Pick any full-page ad in any national magazine with an average circulation of 200,000 people. If an operator received just a 1/2% response rate from their ad and profits only \$20, what did they earn? That's right, they earned \$20,000! Just do the math. Now imagine what happens when this operator multiplies his profits by placing this same ad in more high-circulation magazines or simply charges a higher price!

What Else I Learned . . .

Oh yeah, there's more! These operators were also using other methods to create their fortunes in mail order. They were using direct mail to reach hundreds of thousands of buyers each year. And again, they weren't lifting a finger to do it! They had found the source of the only real mailing list of buyers and had a fulfillment house doing all of the

mailing work for them. They also used companies which would take their 8-1/2"x11" full page ad and fax it to all of the fax machines of opportunity buyers across the country. These same companies took their same ad and e-mailed it to millions of computer users so that when they clicked on their computer, a link to their full page ad was on-screen! The operators behind these ads had found out the secrets to automatically and effortlessly making money 24 hours a day, 7 days a week! Cash, checks, money orders, and credit card #'s stuffed their mailboxes every day. All I could say was WOW!

What Does This Mean For YOU?

Since that time, I've been doing the exact same thing these experts are doing. My first full month in mail order was \$11,650, and since then my income has done nothing but grow. I've even had days of pulling in as much as \$3,000 and \$4,000.

And now, I've finally created a way to make even more money by showing others how to copy me! For a limited time only, I'm going to give you my Dealer's Kit (a \$295 value) absolutely RISK-FREE!
