The Far East Worldwide Funding Program

We are correspondents with a well established international conglomerate funding organization with a wealth of experience in funding projects worldwide. Funding is available for all types of projects in the amount of USD\$5 million to \$50+ million or more. Rates are quoted on a case by case basis, but in most cases are LIBOR plus 2%. In most cases the source of funds is Petroleum money from the major Petro Industries. Professional consultation services are available by a team of the world's top lawyers, accountants and financiers. **There are no advance fees.** Funding is available for virtually any reasonable and legal purpose in almost all countries of the world. We seek clients worldwide. **Broker participation is invited.** If interested to seek funding from this source, please request our bulletin #280 which describes the funding process and contains the guidelines to be followed to successfully seek funding from this source. Please include a LSASE. Products International, 5951 Riverdale Ave., Suite 1029, Riverdale, NY 10471. Fax: (718) 796-4725
